

WX12 Series Paintable Vinyl Corner Guards

INSTALLATION GUIDE NO. 09
REVISED 08/28/2013

STORAGE & HANDLING

The corner guards are shipped unassembled. Upon receipt, the vinyl corner guards should be stored in the horizontal position at room temperature (65 - 75° F). This is a finished product, store in a protected clean, dry area away from direct sunlight.

CAUTION!

DO NOT WALK ON THE CORNER GUARDS.
DO NOT STORE ANYTHING ON TOP OF THE CORNER GUARDS.

The paintable vinyl corner guards come pre-taped from the manufacturer with a 1/32" foam double sided tape with a permanent rubber-based adhesive.

INSTALLATION PROCEDURE

STEP 1. Wall surfaces must be clean, dry, and free from dust and grease. Wipe the wall surface with a solvent to assure all grease, dust and dirt are removed. Make sure that the cleaning solvent used will not damage the finish on the wall surface.

STEP 2. If required, cut corner guard to required length, ensuring that all cuts are square and burr free.

STEP 3. Peel off backing tape from one wing entirely, then peel back the tape partially on the second wing. Place wing with the fully exposed tape to the wall, then remove the remainder of the tape backing from the second wing. Press firmly along the entire length of the corner protector to ensure a good bond.

PAINTING PROCEDURE

STEP 1. Clean the corner guard after installation to remove any dirt or dust using soap and water, then dry the corner guard.

NOTE: DO NOT apply paint while the corner guard is wet.

STEP 2. Prep the area around the corner guard making sure the area is clean and any surrounding area's that you do not want painted are covered or taped off.

STEP 3. Using a water based paint, preferably with a high gloss finish (the high gloss finish will prevent scuffs and scratches from every day wear from showing too much), using a stiff nylon paint brush paint the corner guard the desired color (see figure 1).

Figure 1

CLEANING INSTRUCTIONS

If cleaning is required before painting use a liquid cleaner such as "409", "Fantastic", "Mr. Clean". Once the corner guard has been painted please reference the paint manufactures cleaning instructions and guidelines.
